EDUCATION

Pandit Deendayal Energy University CGPA : 8.98

Bachelor of Computer Science and Engineering

Gandhinagar, INDIA
July 2022- june 2026

Shree Swaminarayan Gurukul Junagadh

12th GSEB Science : 89%

10th GSEB Board : 85%

Junagadh, Gujarat
June 2017 - April 2022

SKILLS

- **Languages :** C/C++, Python, Javascript, HTML5, CSS, SQL, Swift, Kotlin, Java, Dart
- **Framworks :** ReactJS, NodeJS, ExpressJS, TailwindCSS
- **DBMS :** MySQL, MongoDB
- **Tools :** VS Code, XCode, Android Studio
- **Professional Courses :** Computer network, DSA, OOPS, Operating Systems
- **Soft Skills :** Team work, Problem-solving, Time Management, Work, Ethic

PROJECTS

1. Chat App (MERN Stack)

[link](#)

A real-time messaging platform enabling users to communicate seamlessly.

- Developed using the MERN stack (MongoDB, Express.js, React.js, Node.js).
- Integrated WebSocket for live message updates and user authentication for security.
- Designed a responsive UI for both desktop and mobile devices.

2. Chess Game (MERN Stack)

[link](#)

A chess application providing a comprehensive gameplay experience.

- Designed player vs. player with move validation and dynamic game logic.
- Developed a user-friendly interface for an engaging experience across devices.
- Optimized performance to handle complex board states efficiently.

3. Expense Allowance Tracker (Flutter)

[link](#)

A financial management tool to track and analyze expenses.

- Built a dynamic platform for adding, updating, and categorizing expenses, with history.
- Configured backend for secure data storage and retrieval using modern frameworks.
- Focused on delivering an intuitive interface to simplify expense management

Academic Projects

- **Sign to Speech** : Studen Research Project (PDEU)
 - **Operating System** : Scheduling Algorithm Website
 - **DataBase Managers System** : Logistic Management System (Python, MySQL, web)
 - **IPL Auction System** : FullStack site for player auction (html, css, js, php, MySQL)
 - **Charitable** : A platform connecting donors and beneficiaries, enabling seamless donations and transparent tracking of charitable activities.
 - **Daily DSA Code** : A repository showcasing daily problem-solving and coding practices from LeetCode and GeeksforGeeks, highlighting algorithmic skills and consistency.
 - **Charitable** : A platform connecting donors and beneficiaries, enabling seamless donations and transparent tracking of charitable activities.
-

Certificates

- Udemy : ios and Swift development
- Leetcode : 1888 (Top : 4.78%)
- GeeksForGeeks, CodeChef : 1445
- Flutter Fundamentals
- IBM : Web Development Fundamentals
- Alison : Diploma in ios and swift
- Nirma, DAIICT : Hackathons 2023-24
